THE ARMY APPROPRIATIONS. WASHINGTON, March 3. The Conference Committee on the army appropriation bill will meet to-day. The conference are Senators Cole, Thayer and Blair; Representatives Drake, Logan and Black. Besides the amounts changing the appropriations the Senate has addednew legislation of great importance. One new legislation of great importance. One amendment disposes of the question of paying interest on the Union Pacific bonds by directing payment to the road of the amount withheld for the transportation of troops and supplies. This will probably be agreed to by the House. Another amendment opening the Court of Claims by the Quartermaster and Commissary by the Quartermaster and Commissary General's department and accounting officers of the Treasury Department for the prosecution of all claims of loyal citizens of the South for supplies taken by the army during the war, will be strongly opposed by the House conferces. It is asserted that this proposition, if adopted, will cost the government at least fifty million dollars A compromise is possible by substituting for the Senate amendment the proposition of Wm. B. Washburne, to organize a commission to examine the claims and proofs of loyalty presented by the claimants, and report to Congress for further legislation. The Secretay of War has addressed a letter to ctay of War has addressed a letter to senator Cole protesting against the reduc-ion made by the Senate on the items aption made by the Senate on the items appropriated for the purchase of horses for the cavalry and artillery, and for the erection of barracks and quarters. He says that without the appropriations for these purposes, at least as large as were allowed by the House, many troops will have to be withdrawn from the western posts forwant of shelter, and that the cavalry must be dismounted in a great measure, and withdrawn from the frontier. The Senate reduced the items for horses from \$450,000 to \$100,000, and items for the barracks from, \$100,000 to \$150,000.
